JEEVAN C M

Associate Software Engineer | Quality Engineer – Automation & Manual Testing

Bengaluru, India | 9148528299 | jeevan.manjunatha@tietoevry.com | linkedin.com/in/jeevan-c-m-22292523a

PROFESSIONAL SUMMARY

Quality Engineer with 1 year 10 months of experience in manual and automation testing using Selenium WebDriver (Java & C#) within Agile/Scrum teams, with working exposure to Playwright and Functionize AI-based test automation. Skilled in test case design, test plan documentation, and defect tracking using Azure DevOps (ADO), with strong grounding in STLC and SDLC. Responsible for production support, defect resolution, and continuous improvement on the sLearning platform, partnering with QA, development, and product teams to maintain system stability. Certified in Java Full Stack Development and Scrum Fundamentals, with a strong foundation in Core Java, C#, and OOP. Seeking to grow into a Senior QA / SDET role driving automation strategy.

KEY SKILLS

- Programming Languages: Core Java, C#, Object-Oriented Programming (OOP)
- Automation & Testing Tools: Selenium WebDriver (Java, C#), Playwright (working knowledge), Functionize – AI-based Test Automation (trained), Eclipse, Visual Studio Code, Azure DevOps (ADO)
- Testing Practices: Manual Testing, Automation Testing, Test Case Design, Test Plan Documentation, Software Testing Life Cycle (STLC), Software Development Life Cycle (SDLC), Defect Life Cycle Management, Regression Testing, Root Cause Analysis
- Bug/Work Item Tracking: Azure DevOps (ADO)
- Methodologies: Agile, Scrum (Sprint Planning, Daily Standups, Retrospectives)
- Collaboration & Soft Skills: Cross-functional Collaboration, Problem-Solving, Communication, Adaptability, Teamwork

PROFESSIONAL EXPERIENCE

Associate Software Engineer – Quality Engineer, sLearning Product — Feb 2025 – Present

EVRY India Pvt. Ltd. (A Tietoevry Company)

- Provide continuous maintenance and production support for the sLearning application, ensuring system stability, uptime, and a seamless end-user experience.
- Investigate and resolve bugs reported by end users and QA teams, consistently delivering timely and accurate issue closures that reduce backlog turnaround time.
- Diagnose and resolve critical support defects, minimizing disruption to business workflows and safeguarding application availability.
- Design and document test cases and test plans, and log/track defects and work items through Azure DevOps (ADO) for accurate status reporting and traceability.
- Collaborate cross-functionally with QA, Development, Product Owners, and Business Analysts to analyze issues, identify root causes, and implement effective, lasting solutions.
- Contribute to the implementation of user stories, feature enhancements, and minor updates that improve functionality and user satisfaction.
- Participate in requirement refinement sessions, proposing improvements that support the product's ongoing evolution.

Trainee Engineer – Manual & Automation Testing — Apr 2024 – Jan 2025

EVRY India Pvt. Ltd. (A Tietoevry Company)

- Completed structured training in manual and automation testing, building a strong foundation in Core Java and C# for test automation with Selenium.
- Developed and executed automated test scripts using Selenium WebDriver across both Java and C# frameworks, improving test coverage and repeatability.
- Participated in team learning sessions on Agile methodologies and applied them to real software development workflows.

CERTIFICATIONS

- Java Full Stack Development
- Scrum Fundamentals Certification
